Building opportunities for children
and youth thanks to you

#OneYearOfTransformation

YMCA

▶ WHO ARE WE?

YMCA is one of the most widespread international voluntary and non-profit organizations in the world, **with presence in 120 countries.**

The organisation traces its roots back to a youth-led movement in London in 1844, born out of a desire to protect and promote the rights of young people.

In Spain, **YMCA began its work in 1980 in Madrid.** One year later, the Government of Spain declared YMCA an association of public interest.

OUR MISSION

Our aim is to **develop the potential of children and young people**, create an environment that supports their growth and promote social responsibility. We support them in their life journey so nothing limits what they can become.
